EDUCATION

- 1980-1984 **Stanford University**, Palo Alto, CA
Bachelor of Science Degree in Chemical Engineering
- Stanford-in France; Academic and Resident Advisor
- 1990-1992 **Northwestern University, Kellogg School of Management**, Evanston, IL
Masters of Management Degree (MBA and MHA equivalent) with Distinction
- Outstanding Student in Health Services Management Award (top graduating student)
- Austin Scholar (merit scholarship awarded to 5% of entering class)
- Vice President, Women in Management
- Arthur Anderson Award (top first year student in health services)
- 2012-2017 **University of California, Berkeley, School of Public Health**, Berkeley, CA
Doctor of Philosophy Degree in Health Policy
- Specialty Field: **Organizations and Management**
- 4.0 GPA; received merit scholarships; offered AHRQ doctoral fellowship (declined)
- Dissertation Committee: Professors Stephen Shortell (Chair), Hector Rodriguez, Thomas Rundall, Urmimala Sarkar (UCSF)
- Dissertation: *Ambulatory Care Organizations: Improving Diagnosis*

ACADEMIC PROFESSIONAL EXPERIENCE

STANFORD UNIVERSITY, Palo Alto, CA

- 2003- present **FREEMAN SPOGLI INSTITUTE FOR INTERNATIONAL STUDIES**, Palo Alto, CA
Executive Director: Center for Health Policy (CHP)
Provide senior management to a University-wide multi-disciplinary center dedicated to high-quality, innovative research and education to inform health policy decision-making. Oversee several million-dollar program budget and operations. Direct multi-year, multi-disciplinary program and project grants. Mentor and supervise research trainees, associates, and administrative staff. Lead and contribute to projects that produce tools and insights for health policy makers.
- 1994-present **SCHOOL OF MEDICINE**, Palo Alto, CA
- 1998-present **Executive Director: Center for Primary Care and Outcomes Research (PCOR)**

Jointly founded and direct PCOR, a multi-disciplinary research and education center dedicated to developing and applying methods for the rigorous evaluations of health practices in primary and specialty care settings. Provide strategic, administrative and financial management for PCOR, along with CHP, involving over 100 core and affiliated faculty members, post-doctoral trainees, and research staff. Lead and contribute to a wide range of health services research projects aimed at improving delivery system performance and patient outcomes.

2003-present **Co-Director: Scholarly Concentration in Health Services and Policy Research**
Direct concentration in health services and policy research—a required component of the educational program for medical students. Mentor medical students in developing their own scholarship, facilitate faculty-mentored scholarly experiences and develop structured curricula to help students develop critical thinking, skills in evaluation of new data, and hands-on experience with the methods by which new scholarly information is generated. Serve on Standing Committee of Faculty Senate on Medical School Scholarship.

2002-present **Senior Research Scholar/Senior Engineering Research Associate**
Academic Appointment, Department of Medicine, Center for Primary Care and Outcomes Research (PCOR).

2002-present **Associate Director/Co-Director: Stanford-UCSF Evidence-based Practice Center**
Contract award: July 2002- September 2009; PD: Douglas K. Owens, MD, MS
Contract award: October 2009-present; PD: Paul Shekelle, MD (RAND)
Applied for award from Agency for Healthcare Research and Quality (AHRQ) to continue as a research center in the EPC-II program, and subsequently EPC-III, IV and V programs as part of RAND Evidence-based Practice Center.

Investigator

Managed and contributed to research for evidence synthesis for separate projects on regionalization of response for bioterrorism preparedness, quality improvement strategies for selected national priority topic areas (e.g., diabetes, hypertension, asthma, and care coordination), quality-based payment, patient safety and comparative effectiveness topics.

2002-2011 **Principal Investigator: Support for Quality Indicators (SQI)**
SQI-1 Contract award: June 2002- November 2004
SQI-2 Contract award, subcontractor: October 2004-November 2011
A Stanford, UC-Davis, Battelle collaboration to continue improving and validating the quality tools developed by our Stanford-UC Evidence-based Practice Center team, and disseminated by the Agency for Healthcare Research and Quality as the *AHRQ Prevention Quality Indicators, Inpatient Quality Indicators, Patient Safety Indicators, and Pediatric Quality Indicators*. The project aimed to provide a bridge between developers of the quality indicators and users (e.g., health care data organizations, health care systems, hospital associations, and state departments of health). Ongoing validation and evidence updating was conducted to support AHRQ submissions of indicators to National Quality Forum consensus process. Additional indicators developed and reviewed under this contract included: emergency preparedness indicators; and care coordination indicators aimed at the ambulatory care setting.

1998-2004 **TECH International Network Director**
Technology Change in Health Care Global Research Network (TECH), a collaboration of over 50 Investigators from 17 countries with multiple sources of funding including the

National Institute on Aging and Commonwealth Foundation. Project resulted in the production of a book and contributions to health policy field on research using detailed observational and administrative data comparing high technology and low technology treatments for acute myocardial infarction.

1997-2002 **Center Coordinator: UCSF-Stanford Evidence-based Practice Center (EPC)**
Contract award: June, 1997- June, 2002; PD: A. Eugene Washington, MD, MSc
Initiated proposal development to increase funding to health services research in area of strength at Stanford: co-authored successful proposal for contract awarding up to \$3M for evidence-based research on government-selected clinical and policy relevant topics. Developed EPC mission, goals and methods of operation with Executive Committee and Governing Council. Maintained excellent communication between all stakeholders including over 40 faculty at two universities, administrative and contracting personnel, funding agency program staff, and professional groups that nominated topics.

Investigator

Managed and contributed to research for evidence synthesis for 7 separate projects on stable angina, unstable angina, hospital-based quality indicators, autopsy, decision support systems for response to bioterrorism event, patient safety practices, and coronary heart disease in women. All reports have supported nationally prominent guidelines, tools, quality improvement activities, public health preparedness plans, and/or consensus conferences.

1994-2000 **Project Director: Cardiac Arrhythmia and Risk of Death (CARD) Patient Outcomes Research Team (PORT)**
Grant award: August, 1994-July, 1999, extended through November, 2000
PI: Mark Hlatky, MD
Directed multi-disciplinary, multi-institutional team of researchers with backgrounds in biostatistics, epidemiology, health services, economics, and medicine, in large outcomes study. Managed day-to-day activities and budget decisions for \$5.1M, 6-year, 7-study, 4 site project. Project afforded me the opportunity to learn health services research in depth, and transition to an academic career without formal doctoral training.

NON-PROFIT ORGANIZATION PROFESSIONAL EXPERIENCE

STANFORD UNIVERSITY HOSPITAL, Palo Alto, CA

1992-1994 **Manager, Technology Optimization and Business Development**
Developed and sustained medical center wide technology assessment and management initiative to apply university based research capabilities in evaluation to hospital setting. Conducted research to identify issues related to medical technology (pharmaceuticals, devices, diagnostics, equipment and procedures) decision-making, culminating in creation of “Technology Assessment Council” of 20 clinical and administrative leaders. Coordinated Neurosciences Service Line development and business planning, including work on reducing cost, increasing market revenue, and enhancing quality.

Summer 1991 **Business Development Intern**
Researched and wrote needs assessment section of HCFA application for new Kidney and Liver Transplant Program. Co- authored strategic plan for 72-hour post-operative care

business. Coordinated internal and external data gathering and analysis for Perinatal Center Business Plan.

INDUSTRY PROFESSIONAL EXPERIENCE

BIOTRACK, INC., Mountain View, CA

Successful start-up medical diagnostics products company. Company's products targeted at doctor's office where these tests are run on one drop of blood, with results reported within five minutes.

1989-1990

Program Manager, R&D

Directed interdisciplinary team of eight engineers and chemists in product development of patient-side immunoassay system for measuring therapeutic drug analytes in blood. Guided project through clinical trials and filing of 510(k) submissions to FDA. Demonstrated key product and made presentations to potential corporate buyers. Developed plans and budget for product transfer and production scale-up.

1987-1989

Senior Development Engineer, R&D

Patented single-use capillary action cartridge for rapid assay of blood clotting times (APTT) (U.S. Patent # 5,039,617 (issued 8/13/91): "Capillary flow device and method for measuring activated partial thromboplastin time." Acted as liaison between R&D and manufacturing for prothombin time (PT) and activated partial thromboplastin time (APTT) products. Coordinated transfer and validation of product into an existing automatic production line.

SIGNETICS CORPORATION, Sunnyvale, CA

Integrated Circuit Manufacturer that adopted Deming and Juran TQM methods.

1986- 1987

Supervising Engineer, Advanced Process Development Fabrication Area

Managed engineering group troubleshooting production line and developing new processes. Led Statistical Process Control team and trained other team leaders.

1984-1986

Process Engineer

PUBLIC & PROFESSIONAL SERVICE

Reviewer, Patient Safety Centers of Inquiry Review Panel, VA National Center for Patient Safety, 2017
Chair, Models and Measures Working Group for VA State of the Art (SOTA) on Care Coordination, 2017-
International Expert Advisor, Australian Health Care Homes Evaluation, HPAN, 2017-
Committee Member, Diagnostic Accuracy Committee, National Quality Forum (NQF), 2017
Board Chair, Relational Coordination Research Collaboration, Brandeis University, 2016-
Associate Editor, *Diagnosis*, 2014-
Chair, Patient Engagement Committee, Society to Improve Diagnosis in Medicine, 2013-2016
Past Chair, Patient Engagement Committee, Society to Improve Diagnosis in Medicine, 2016-
Member, Policy Committee, Society to Improve Diagnosis in Medicine, 2016-
Member, Research Committee, Society to Improve Diagnosis in Medicine, 2014-
Technical Expert Panel Member, Care Coordination Measures Based on Medicare Advantage, 2016.
Institute of Medicine Committee Member, Diagnostic Errors in Healthcare, 2014-2016
Network Co-Host, Relational Coordination Research Collaboration, 2014-2015
Executive Board (Measurement Expert), Relational Coordination Research Collaboration, 2011-2015
Planning Committee Member, Diagnostic Errors in Medicine Annual Meetings, 2010-2014

Executive Committee Member, Congestive Heart Failure QUERI, Department of Veterans Affairs, 2006-16
Reviewer, Patient Centered Outcomes Research Institute (PCORI) Study Section, 2012
Associate Editor, *BMJ Quality & Safety*, 2011-2012
Associate Editor, AHRQ Effective Health Care Program, 2012
Past-President, Board of Trustees, Society for Medical Decision Making (SMDM), 2010-2011
Technical Expert Panel Member, Oregon Evidence-based Practice Center, 2010-2011
Institute of Medicine Committee Member, Pediatric Health and Health Care Quality Measures, 2009-2011
Member, Academy for Healthcare Improvement 2012-
Member, SMDM, 1994-
President, SMDM, 2009-2010
President-Elect, SMDM, 2008-2009
Chair, Finance Committee, SMDM, 2008-2009
Global Health Indicators Working Group Member, Center for Global Development, 2006
Chair, SMDM Executive Director Search Committee, 2006-2007
Vice-President, SMDM Board of Trustees, 2004-2005
Chair, Education Committee, SMDM, 2004-2005
Vice-President Elect, SMDM Board of Trustees, 2003-2004
Past Chair, Publications Committee, SMDM, 2002-2005
Editorial Board, *Medical Decision Making (MDM)*, 2002-2005
Agency for Healthcare Research and Quality Contract Proposal Review Committee, 2002
Secretary-Treasurer, SMDM Board of Trustees, 2001-2003
Secretary-Treasurer Elect, SMDM Board of Trustees, 2000-2001
Chair, Publications Committee, SMDM, 1999-2002
President, Mountain View Schools Fund (MVSF) Board, 1998-1999
Chair, MVSF “Tools for Schools” Fundraising Campaign (\$100K/year raised)
Reviewer, *Quality and Safety in Healthcare, Health Affairs, Medical Care, JAMA, and others*

RESEARCH INTERESTS

Health care quality and patient safety
Diagnostic excellence
Organizations and management
Patient/family-centered medicine
Measure development and use
Multi-disciplinary approaches to evaluating health care practices, interventions and policies
Evidence-based medicine
Systematic reviews
Medical technology assessment
Decision analysis and patient preferences

CURRENT RESEARCH PROJECTS

12/01/16-08/31/18 **Development of Strategic Framework and Implementation Plan for Measuring Diagnostic Excellence**
Role: Principal Investigator
Funding Source: Gordon and Betty Moore Foundation
The project will facilitate the development of a framework for capturing and assessing diagnostic excellence and errors. Results of this research will contribute to

the Moore Foundation's Patient Care Program's safety initiative to improve diagnosis in medicine.

8/25/17-8/24/18

Exploring Outpatient Medication Use in Community Settings

Role: Principal Investigator, Stanford (subcontract to UCSF, PI Sarkar)

Funding Source: Moore Foundation

The project aims to critically analyze medication use in real-world community settings to inform efforts to improve patient safety. The scope includes medication decision-making (as a shared decision-making process between prescriber and patient/ family), through dispensing at the pharmacy, to medication self or caregiver administration in the home, and beyond.

10/01/07- 11/30/17

RAND Evidence-based Practice Center (EPC)

Role: Co-Director, Stanford EPC

Principal Investigator: Paul Shekelle, MD

Funding Source: AHRQ

The major goal of the EPC is to produce evidence reports and technology assessments on topics identified by the funder. The reports are expected to serve as the scientific basis for use by organizations developing guidelines, performance measures, or other quality improvement tools; or for guidance for health care decision making related to effectiveness or appropriateness of health care technologies.

Selected Completed Projects: patient safety practices; and closing the quality gap: state of the science; ambulatory care patient safety practices

07/01/15-06/30/20

NIH Using Electronic Health Records to Measure and Improve Prostate Cancer

Role: Co-Investigator

This project aims to assess the feasibility of natural language processing and other methodologies to capture clinical and encounter information from Electronic Health Records, and to develop and assess specific quality metrics based on EHR data relevant to prostate cancer care.

09/01/15-06/30/20

AHRQ Improving Quality of Postoperative Pain Care Through Innovative Use of Electronic Health Records

Role: Co-Investigator

This project proposes to develop methods to gather patient centered outcomes recorded in EHRs and a risk-assessment tool to estimate personalized risks of outcomes across treatments. Such information will help policy makers and healthcare workers to improve patients' healthcare experiences and outcomes.

PAST RESEARCH SUPPORT (from 2004 forward)

08/01/14- 07/31/17

AHRQ Analytic Enhancement of the AHRQ Quality Indicators (QI)

Role: Principal Investigator

Funding Source: AHRQ (under Quality Measure Contract, below)

This project supports the annual enhancements of the AHRQ Quality Indicator modules, including evidence review, annual updates based on new evidence and changes in data conventions, development of innovative measurement approaches, support for National Quality Forum endorsement of measures, convening technical

expert and stakeholder panels, SAS software and tool development, and information management for the QI program. The overarching aim is scientific advancement of measurement in response to needs of different types of indicator uses (quality improvement, comparative reporting, public reporting, pay for performance).

01/30/12- 01/29/17*

AHRQ Quality Measure Development Contract

Role: Principal Investigator

Funding Source: AHRQ

The goal of the umbrella contract for a center of excellence is to facilitate transparent and innovative research in health care measurement that engages major stakeholders, including payers, clinicians, patients, and other potential users of a given indicator set, with the expectation of practical use of the evidence-based measures and tools created under this mechanism. The expected topic areas include but are not exclusive to: clinical status, functional status, patient outcomes, patient safety and adverse events, care across the delivery spectrum, continuity of care and care management, resource use, effectiveness, efficiency, access to care, disparities, prevention, and pediatric, adult and geriatric measures.

*Umbrella contract active beyond end date, given options through July 2017.

09/22/14-03/31/17

Using Public Deliberation to Define Patient Roles in Reducing Diagnostic Error

Role: Project Consultant

Principal Investigator: Tina Nabatchi, PhD (Syracuse University)

Funding Source: AHRQ

The main goals of this project are to: (1) engage healthcare consumers and professionals in a series of public deliberation sessions to develop informed and practical patient-focused strategies for reducing diagnostic error, and (2) evaluate and demonstrate the efficacy of using deliberative methods to involve consumers in important health care issues.

01/30/12- 01/29/17

The Geography of Acute Care

Role: External Advisor (not funded)

Funding Source: AHRQ (RO1)

Principal Investigator: Douglas J Wiebe, PhD (University of Pennsylvania)

The geography of acute care Project Goals: The overall goal of this project is to empirically derive novel healthcare coalitions and the corresponding catchment areas that can be used to describe and incentivize the achievement of population health. Ultimately the project will measure variability in prevention quality indicators across healthcare coalitions, and publicly disseminate statistical code and geographic shapefiles for healthcare coalitions and catchments.

09/16/13 – 09/15/16

Network of Patient Safety Databases Analyses of Patient Safety Events

Role: Principal Investigator

Funding Source: AHRQ

This project aims to analyze data collected by Patient Safety Organizations (PSO) and other available data on patient safety events to identify trends. The project will contribute to the Congressionally-mandated Effective Strategies Report through literature review and review of emerging patient safety strategies.

09/30/14-09/29/16

AHRQ Inventory and Prioritization of Measures to Support the Growing Effort in Transparency Using All-payer Claims Databases (APCDs)

Role: Principal Investigator

Funding Source: AHRQ

All-Payer Claims Databases (APCDs) provide rich information about cost, utilization and outcomes at a population level, spanning the boundaries of time, care settings, episodes of care and payers. This project seeks to lay the foundation for use of APCD data for measurement and transparency efforts — what measures of price, utilization and quality are available or currently in use with APCD data, where major measurement gaps exist, and how key stakeholders can encourage use of APCD data for measure reporting.

09/30/12- 09/29/14

AHRQ Emergency Department-Related Quality Measurement

Role: Principal Investigator

Funding Source: AHRQ

This project aimed to develop indicators derived from emergency department data as a window to community health and health care resources. The project defined a conceptual framework applied to candidate ED-related indicators of community health, and established a useful, feasible and scientifically sound set of measures related to general and behavioral health. They are currently under consideration at AHRQ for public release and submission to a national consensus entity.

08/15/99-09/29/14

Center on Demography and Economics of Health and Aging

Role: Associate Director

Principal Investigator: Jay Bhattacharya, MD, PhD

Funding Source: NIH/NIA

The goals of the Stanford Center on the Demography and Economics of Health and Aging (CDEHA) are to promote the study of trends in demography, economics, health, and health care, and the effects of these trends on the well-being of the elderly. A primary activity of the grant is selection and award of pilot project funding.

09/30/04- 08/31/14

Center on Advancing Decision Making in Aging

Role: Associate Director

Principal Investigator: Mary K. Goldstein, MD, MS; Alan Garber, MD, PhD

Funding Source: NIH/NIA

CADMA will promote the study of decision-making processes and the determinants of choices that affect health and wellbeing in the later years of life. CADMA researchers plan to conduct basic and applied research on decision-making processes with a goal of developing and implementing practical methods for improving fundamental decisions affecting the well-being of the elderly.

09/30/12- 09/29/13

AHRQ Integrating NHQR/NHDR Quality Measurement Resources

Role: Principal Investigator

Funding Source: AHRQ

This project aims to implement the integrated design of the National Healthcare Quality Report and National Healthcare Disparities Report, test it, and (if the Option period is exercised) enhance the Web site's resources with additional scientific evidence that will help users learn how to improve health care for Americans—including those most vulnerable to suboptimal treatment.

11/01/08- 02/28/12

Characterization of Readmission in California and an Estimation of the Impact of Post-Discharge Complications on the Sensitivity of the AHRQ QIs

Role: Co-Principal Investigator

Funding Source: The Gordon and Betty Moore Foundation

The primary goal is to understand potentially preventable readmission rates and patterns in San Francisco Bay area adult acute care hospitals and the relationship between potentially preventable readmissions and other hospital quality indicators.

09/30/04- 11/30/11

Support for Quality Indicators- II

Role: Principal Investigator

Funding Source: AHRQ/Battelle subcontract

The primary goal of the subcontract is to update and enhance the Stanford-developed quality indicators, based on administrative data and other information that can be readily linked to these sources. Other goals include new indicator development (emergency preparedness, care coordination) and support for submission of indicators to the National Quality Forum endorsement process.

06/17/02 - 09/30/09

Stanford-UCSF Evidence-based Practice Center (EPC)

Role: Associate Director

Principal Investigator: Douglas K. Owens, MD, MS

Funding Source: AHRQ

The major goal of the EPC is to produce evidence reports and technology assessments on topics identified by the funder.

06/17/05- 09/30/09

Comparative Effectiveness Reviews for MMA Section 1013

Role: Investigator

Principal Investigator: Douglas K. Owens, MD, MS

Funding Source: AHRQ (under the EPC)

To produce comparative effectiveness reviews on medical interventions, including a report comparing surgery versus percutaneous interventions for clogged heart arteries, and another comparing use of Factor VII to standard of care for massive bleeding.

06/17/02- 09/30/08

Broad-based Support for the EPC Program

Role: Investigator

Principal Investigator: Douglas K. Owens, MD, MS

Funding Source: AHRQ

The major goal of this project was to conduct thorough reviews of the literature and other sources for evidence on specific topics. Other goals included involvement in EPC agenda setting and participation in workgroups to foster collaboration in evidence-based methodology.

05/30/03- 08/31/07

Best Practices for Quality Health Care

Role: Investigator

Principal Investigator: Douglas K. Owens, MD, MS

Funding Source: AHRQ

The major goal of this project was to conduct a thorough review of the literature and other sources for evidence on quality improvement strategies for selected national priority topic areas.

09/25/01- 04/30/06

China- US Health and Aging Research Program

Role: Advisor

Principal Investigator: Alan Garber, MD, PhD

Funding Source: NIH/AHRQ

This planning phase for a China-US Health and Aging Research Training Program aimed to improve the quality and efficiency of health care delivery in China, generally by developing the health services research capacity in China, and specifically through research projects conducted by trainees targeted to address Chinese health policy priorities.

05/16/05- 03/15/06

Diagnosis and Management of Pediatric Anthrax

Role: Investigator

Principal Investigator: Douglas K. Owens, MD, MS

Funding Source: AHRQ

The major goal of this project was to conduct a thorough review of the case report literature on pediatric anthrax.

07/01/99- 06/30/04

A Global Analysis of Technological Change in Health Care

Role: Investigator

Principal Investigator: Kessler

Funding Source: NIH/NIA

The major goal of this project was to investigate the determinants and consequences of technological adoption and diffusion in disease-specific domains by examining multiple data sources on medical technology use in 16 developed countries.

06/03/02- 06/02/04

Support for Quality Indicators

Role: Principal Investigator

Funding Source: AHRQ

The primary goals of this project were to translate research into practice by providing technical assistance to users of the Stanford-developed quality indicators, and to continue development of quality indicators based on administrative data and other information that can be readily linked to these sources.

09/30/02- 05/31/04

Regional Models for Bioterrorism Preparedness

Role: Investigator

Principal Investigator: Douglas K. Owens, MD, MS

Funding Source: AHRQ

The major goal of this project was to conduct a thorough review of the literature and other sources for evidence on regional models for response to a bioterrorism event.

INVITED PRESENTATIONS

- 1) Trends in Hospital Treatment of Ventricular Arrhythmias Among Medicare Beneficiaries, 1986-1994. American Heart Association 71st Scientific Sessions (Dallas, Texas; Nov. 8, 1998)
- 2) Technological Change in Health Care (TECH) Research Network. 16th Annual Meeting Association for Health Services Research (Chicago, Illinois; June 28, 1999).
- 3) A Global Analysis of Technological Change in Health Care: Heart Attacks. The XV International Scientific Meeting of the International Epidemiological Association (Florence, Italy; September 3, 1999).
- 4) Health Economics Implications of Treatment of Coronary Events. The XV International Scientific Meeting of the International Epidemiological Association (Florence, Italy; September 3, 1999).
- 5) Measuring Health Care and its Determinants. Population Association of America 2000 Annual Meeting (Los Angeles, California; March 23, 2000).
- 6) Overview of "Making Health Care Safer: A Critical Analysis of Patient Safety Practices". National Quality Forum Safe Practices Committee meeting (Washington, DC. July 18, 2001).
- 7) Discussion on Applying the Findings of the Agency for Healthcare Research and Quality Evidence Report: "Making Health Care Safer: A Critical Analysis of Patient Safety Practices." Department of Veterans Affairs and Quality Interagency Coordination Task Force conference, Effective Practices to Improve Patient Safety, Summit 2001 (Washington DC; September 5-7, 2001).
- 8) Health Services Research 101: Systematic Review Methods Used at the Stanford-UCSF Evidence-Based Practice Center. Primary Care and Outcomes Research. (Stanford, California; July 24, 2002).
- 9) Patient Safety Indicators: Identifying Potential Preventable Complications Using Hospital Discharge Data. Patient Safety Seminar VHA West Coast (Pleasanton, California; December 19, 2002).
- 10) Patient Safety Surveillance Using Hospital Discharge Data: Opportunities and Obstacles. Stanford University Center for Primary Care and Outcomes Research. (Stanford, California; January 29, 2003).
- 11) AHRQ Quality Indicators Workshop. American Association of Health Plans (Atlanta, GA; April 30, 2003).
- 12) Series of Patient Safety Climate presentations. Executive Teams at CHP/PCOR Patient Safety Consortium hospitals (numerous hospitals in Southern and Northern California, 2003).
- 13) Quality Indicators for Inpatient Care, Patient Safety and Avoidable Hospitalizations: Building a Bridge from Indicator Development to User Applications. 5th International Conference on the Scientific Basis of Health: Global Evidence for Local Decisions. (Washington, DC; September 22, 2003).
- 14) Health Care Quality and Safety Measures Based on Administrative Data: From Development to Application. Workshop with co-presenters: Romano PS, McBride S. International Society for Quality in Health Care. (November 5, 2003).
- 15) Benchmarks and Handbook for Regional Planners: Evidence on Regionalization of Bioterrorism Response. AHRQ User Liaison Program for senior Federal, State, and local government policymakers, Bioterrorism and Other Public Health Emergencies: Tools and Models for Planning and Preparedness. (Chicago, IL; May 18, 2004).
- 16) Data Workshop—HCUP and AHRQ Quality and Patient Safety Indicators. 10th Annual NRSA Trainees Research Conference. (San Diego, CA; June 5, 2004).
- 17) Closing the Quality Gap: Care Coordination. Evidence-based Practice Centers Annual Directors' Meeting. (Washington, DC; November 5, 2004).
- 18) Development of Pediatric Quality Indicators using Hospital Discharge Data. Stanford University Center for Primary Care and Outcomes Research (Stanford, CA; February 2, 2005).
- 19) Development, Refinement and Ongoing Validation of the AHRQ Quality Indicators. Kaiser Division of Research Seminar (Oakland, CA; May 3, 2005).

- 20) Overview of the Pediatric Quality Indicators Module. AHRQ Quality Indicators Users Meeting (Stanford, CA; September 26, 2005).
- 21) Development of Pediatric Quality Indicators Based on Hospital Administrative Data. Pediatric Academic Societies' 2006 Annual Meeting (San Francisco, CA; April 29, 2006).
- 22) Validating the AHRQ Patient Safety Indicators: Current Uses and Research. Eighth Annual National Patient Safety Foundation Congress (San Francisco, CA; May 11, 2006).
- 23) Assessing Pediatric Healthcare Quality in U.S. Hospitals and Regions Using Readily Available Administrative Data. HCQO4 Fourth Annual Bay Area Health Care Quality and Outcomes Conference (San Francisco, CA; May 25, 2006)
- 24) Center for Demography, Economics and Health in Aging (CDEHA) Research. American Society of Health Economists' first annual conference (University of Wisconsin-Madison, June 7, 2006).
- 25) Evidence-based Medicine Method and Projects at the Stanford-UCSF EPCs. Professionalism in Contemporary Practice (Stanford, CA; September 15, 2006).
- 26) Evidence-based Practice Centers – Research and Context. Palo Alto Research Center (Palo Alto, CA; December 12, 2006)
- 27) Care Coordination—Evidence-based Practice Center's Report: Definitions, Theoretical Frameworks and Relationship to Transitions/Handovers and Information Exchange.” ABIM Foundation's Stepping Up to the Plate Transitions/Handovers Expert Meeting (Philadelphia, PA; March 7, 2007).
- 28) Executive Summary of AHRQ Evidence Report on Care Coordination. American College of Physicians-Society of General Internal Medicine-Society of Hospital Medicine Transitions of Care Consensus Conference (Philadelphia, PA; July 11, 2007).
- 29) Ongoing and Future Research on AHRQ Quality Indicators. AHRQ Annual Meeting (Bethesda, MD; September 10, 2008)
- 30) Outcomes for Our Health System in 20 Years. 3rd Annual Haas Business of Health Care Conference (Berkeley, CA; February 8, 2009).
- 31) Governance and the Delivery of Public Health Services. Center on Democracy, Development, and the Rule of Law (CDDRL). Draper Hills Summer Fellows Program in conjunction with Global Health Corps Training Program (Stanford, CA; July 29, 2009).
- 32) Development of Emergency Department Quality Indicators. AHRQ 2009 Annual Conference. (Bethesda, MD; September 14, 2009).
- 33) Research Informing Policy Informing Research: Continuous Quality Improvement and the AHRQ Quality Indicators. AHRQ 2009 Annual Conference. (Bethesda, MD; September 14, 2009).
- 34) Meaningful Measures for Care Coordination: Building Blocks from Research Conducted for the Agency for Healthcare Research and Quality. NCVHS Testimony on Care Coordination Measures. (Teleconference; October 13, 2009).
- 35) So You Think You Can Coordinate Care? Prove It!: Care Coordination Measures Atlas Project. AHRQ 2010 Annual Conference. (Bethesda, MD; September 27, 2010)
- 36) Presidential Address: SMDM as a Catalyst—Personally, Professionally, Playfully and Powerfully. Society for Medical Decision Making Annual Conference. (Toronto, Canada; October 26, 2010).
- 37) Measuring Context in Health Care Quality Improvement (QI) Interventions. Academic Pediatric Association Conference for Pediatric Quality Improvement Methods, Research and Evaluation. (Denver, Colorado; April 29, 2011)
- 38) Forecasting Panel. 2011 MacEachern Symposium: Re-Forming Healthcare After Health Reform: ACOs and Other Innovations in Healthcare. (Evanston, IL; May 11, 2011)
- 39) Health System Measurement in Accountable Care: Current Landscape and Future Directions. Indiana University Health Presents: Measurement Summit: Developing Measures and Teamwork for Accountable Care. (Indianapolis, Indiana; July 30, 2011)
- 40) Selecting Care Coordination Measures for Primary Care Practice Assessment. AHRQ Annual Conference. (Bethesda, Maryland; September 18-21, 2011)
- 41) Performance Measurement for New Care Models. Clinical Excellence Research Center. (Stanford, CA; August 4, 2011)

- 42) How Much Diagnostic Safety Can We Afford? Diagnostic Error in Medicine (DEM) Annual Conference. (Chicago, IL; October 26, 2011)
- 43) Measuring Interventions and their Impact. Relational Coordination Research Collaborative Roundtable. (Cambridge, MA; October 28, 2011)
- 44) Transdisciplinary approach to health care problems and decision making. USA Clinical-Counseling Doctoral Program Grand Rounds and USA Department of Psychology Colloquium Series at the University of Southern Alabama. (Mobile, AL; October 31, 2011)
- 45) Mapping the Care Coordination Measures Landscape. Health Services Research Seminar at the University of Pittsburgh. (Pittsburgh, PA; April 17, 2012)
- 46) Sg2 and Modern Healthcare Luncheon & Forecasting Panel. 2012 MacEachern Symposium: What Happened to Altruism in Healthcare? (Evanston, IL; April 25, 2012)
- 47) The Closing the Quality Gap Series: Revisiting the State of the Science Using Systematic Reviews. 2012 Academy for Healthcare Improvement's Conference on Advancing the Methods for Healthcare Quality Improvement Research. (Arlington, VA; May 7-8, 2012)
- 48) Care Coordination Measurement Landscape. Seminar Medical Management Centre, The Karolinska Institutet. (Stockholm, Sweden; May 28, 2012)
- 49) The Contribution of Evidence Review to Improving Health Care. Karolinska Institutet Medical Management Centre 10th Anniversary Conference on Translational Research, Knowledge Translation and Implementation Science. [conference May 29-30, 2012] (Stockholm, Sweden; May 29, 2012)
- 50) 10th Annual Meeting of the Quality Improvement Research Network (QIRN). Discussant. The Karolinska Institutet. (Stockholm, Sweden; June 4-5, 2012)
- 51) Care Coordination Quality Improvement Measures: Building an Evidence Base. (San Antonio, TX; July 17-21, 2012)
- 52) Patient-Centered Communication (moderator/session convener). Diagnostic Error in Medicine 2012: Fifth International Conference. (Baltimore, MD; November 11-13, 2012)
- 53) Personal Reflections on a Prevalent Commonly Missed Diagnosis: Patient and Provider Exchange (moderator/session convener). Diagnostic Error in Medicine 2012: Fifth International Conference. (Baltimore, MD; November 11-13, 2012)
- 54) Cancer Care Coordination Measures: What is Measured... Gets Done (or Gets Attention). Symposium 17: Coordinating Cancer Care at Society for Behavioral Medicine Annual Conference. (San Francisco, CA; March 21, 2013)
- 55) A Window to Community-based Population Health: Emergency Department Community Indicator Development for National Surveillance and Local Action. Population Health Sciences Colloquium. (Stanford, CA; September 26, 2013)
- 56) Evaluating Strategies and Practices that Deliver: From Behaviors to the Critical Role of Measurement. (University College Dublin, Ireland; January 16, 2014)
- 57) Patient and Family Engagement to Reduce Diagnostic Error. (Monday, March 3, 2014: <http://www.npsf.org/events-forums/patient-safety-awareness-week/>)
- 58) Patient Summit: How to Reduce Chances of Misdiagnosis (moderator/session convener). Diagnostic Error in Medicine. (Atlanta, GA; September 14, 2014)
- 59) "Deep" Root Cause Analysis: Patient and Professional Dialog on Diagnostic Errors? (moderator/session convener). Diagnostic Error in Medicine. (Atlanta, GA; September 15, 2014)
- 60) Relational Coordination and the Future of Patient Focused Care. Compassion and Health Care Conference. (San Francisco, CA; November 12, 2014). Link: <http://ccare.stanford.edu/videos/compassion-and-healthcare-2014-future-directions/>
- 61) Patient Summit: Participate to Prevent Misdiagnosis and Diagnostic Errors – Where Do We Go From Here? – Policy, Payer and Practice Implications. Diagnostic Error in Medicine (DEM) Conference (Washington, DC; September 26-29, 2015).
- 62) What Have We Learned? What Comes Next? Healthy and Thriving Workplaces and Communities – The Role of Relational Coordination. Fifth Annual Relational Coordination Research Collaborative (RCRC) Roundtable Conference. (New York, NY; October 15-16, 2015).

- 63) Patient Safety: Get the Diagnosis Right. The Fifth Annual Lundberg Institute Lecture. The Commonwealth Club. (San Francisco, CA; November 10, 2015). Link: <http://www.commonwealthclub.org/events/archive/podcast/patient-safety-get-diagnosis-right>
- 64) Once in a Lifetime: PSO Prerogative for Reducing Diagnostic Error. 8th Annual Meeting of Patient Safety Organizations Conference. (Rockville, MD; April 13-14, 2016).
- 65) Session Chair. Oral Abstracts: Health services, outcomes & policy research. 6th Biennial European Conference. (London, England; June 12-14, 2016).
- 66) How Organizational Factors Impact Diagnostic Safety. AHRQ Research Summit: Improving Diagnosis in Health Care Conference. (Rockville, MD; September 28, 2016).
- 67) “Value and Safety,” Health Policy through 2020: The ACA, Payment Reform and Global Challenges, sponsored by Stanford Health Policy. (Stanford, CA; October 14, 2016).
- 68) Research and Practice as Bedfellows: Analysis of Cases of Organizational Change from The Relational Coordination Research Collaboration Interventions Registry. Sixth Annual Relational Coordination Research Collaborative (RCRC) Roundtable Conference. (Portland, OR; October 27-28, 2016).
- 69) Integrating Implementation Science and Organization Science. Organization Theory in Health Care Association. Annual Conference, 2017. (Berkeley, CA; June 16, 2017).

TEACHING AND ADVISING

Health Research and Policy 254: Quality and Safety in U.S. Healthcare. Guest lecturer on patient safety and quality. Winter Quarter, Fall Quarter, 2017.

Health Research and Policy 201B: Health Policy PhD Seminar II First Year. Guest lecturer on patient safety and quality. Spring Quarter, 2016.

Freeman Spogli Institute (FSI) Stanford Program on International and Cross-Cultural Education (SPICE) sponsored online course in Global Health regarding the use of public deliberation for recommendations about diagnosis and diagnostic error at Takatsuki High School, Japan, Fall Quarter, 2015.

Health Research and Policy 207: Issues and Methods of Health Services and Policy Research, Fall Quarter, 2003-2006.

Health Research and Policy 208 Issues and Methods Part II: annual guest lecturer on patient safety and quality; systematic reviews and meta-analysis.

Undergraduate Honors and Directed Reading Advising: Amy Chen, Theodore Chang, Hilary Homenko, Eugene Lin, Megan Talbot

Mentor for Haas Public Service Leadership Program: Amy Chen

Mentor for Undergraduate Research Award: Ceslee Montgomery (Project: Assessing Care Coordination Need Variation at a Population Level)

Medical Scholars Research Project Advising: Brian Matesic, Rebecca Kim, Juan Carlos Montoy

Associate Director and Advisor: AHRQ T32 Training Program in Health Services Research

Post-Doctoral AHRQ Fellow Thesis Advising: Bradford Duncan, Tina Hernandez-Boussard

Primary Mentor for AHRQ Mentored Research Scientist Development Award (K01) “Prioritizing Quality Improvement in Surgery through Patient Safety Indicators”: Tina Hernandez-Boussard

Graduate Student Instructor, UC Berkeley: Strategic Management of Health Care (with Stephen Shortell and Jeff Oxendine, Winter 2016); Health Care Organization and Management (with Ann Chou, Fall 2013, Online MPH Program)

AWARDS AND HONORS

Saenger Distinguished Service Award, Society for Medical Decision Making, 2007

Stanford Department of Medicine Teaching Award, 2006

Most Outstanding Abstracts Award AcademyHealth Annual Research Meeting, 2006

Co-author of Society for Medical Decision Making Lee Lusted Prize Abstract, 1996

Outstanding Student in Health Services Management Award, Northwestern University, 1992

Arthur Anderson Award, Top First Year Student, Northwestern University, 1991

Austin Scholar (merit scholarship awarded to 5% of entering class, Northwestern University), 1990

United States Patent # 5,039,617 (issued 8/13/91): “Capillary flow device and method for measuring activated partial thromboplastin time”
